Office Action Summary

PART III: REASONS FOR REJECTIONS AND OBJECTIONS

The following is a quotation of 35 USC 103 which forms the basis for all obviousness rejections set forth in this Office action:

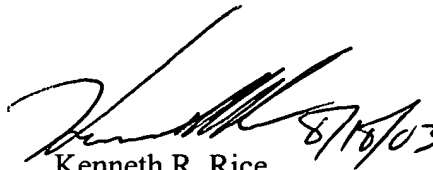

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made. Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

This application currently names joint inventors. In considering patentability of the claims under 35 USC 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 USC 102(f) or (g) prior art under 35 USC 103.

Claims 1, 2, 4, 6, 7, 9, 11, 12, 14, 16, 17 and 19 are rejected under 35 USC 103 as being unpatentable over Suzuki in view of Davis et al. Suzuki discloses the invention substantially as claimed. However, Suzuki does not disclose the use of a personal electronic device. Davis et al teaches the use of a smart card with a personal electronic device (column 8, lines 10-32) in the same field of endeavor for the purpose of communicating with a merchant server. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a personal electronic device with a smart card reader such as that shown by Davis et al in the system of Suzuki in order to communicate with a merchant server.

Applicant's arguments with respect to claims 1, 2, 4, 6, 7, 9, 11, 12, 14, 16, 17 and 19 have been considered but are moot in view of the new grounds of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth Rice at (703) 308-3495. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist at (703) 308-1113.
